WHAT CAN YOU DO TODAY!

Do you ever reason yourself why are you on this earth? Why in this time and Era? What is the purpose of our existence? The present situation perhaps might have answered some of your queries. A research done on life expectancy 2019 averages a person's longevity to about 69 years for male and 71 years for female. In comparison if I may have to analyze my longevity I just have three decade ahead, of which I am not sure in between. Yet as long as my heart beat in rhythm, I am deeply thankful to God, for the gift of Life each Day.

Who would have thought such pandemic could strand the normalcy of all human activities; its result has exploited beyond our expectations and we all know it well, it will be with us for more years. This pandemic should be seen as an opportunity in helping us find a new meaning to life. Today we are called to be united, called to share, to help, to give, to solicit offers, to be in solidarity and above all young and able should come out in giving back the community our best of services. I am enlightened in all aspect in these past seven days of my community service, I am sure so are my co-workers. We Six stands firm in finding our purpose to serve God and our experience in volunteering as Front liners is way beyond explainable, this service has prepared us to fit into any realms ahead. We have understood the purpose of a new humanity, a New Mission of God towards humanity as well as oneself. We have achieved pleasure in serving and thus, As Mahatma Gandhi, states "The best way to find yourself is to lose yourself in the service of others". Our struggles has also been a gain.

In risking our lives, confronting the reality, I see it as a prospect making an epic memories together. In this Epoch of chaos, the pandemic stands not as an individual struggle but a community battle where every hands are equally responsible in making possible win this war. When life gives you a chance, do it today, when you have a chance to win the battle fight today, when time is on your side why not make it a worth living. This song should remind us.

"Battles Are Fought By Those With The Courage To Believe
They Are Won By Those Who Find The Heart
Find A Heart To Share
This Heart That Fills The Soul Will Point The Way To Victory
If There's A Fight Then I'll Be There I'll Be There

God stands on our side, may we respond to his call!

From all deadly disease
Save me Oh save me oh Lord

PRAYER SECTION

Gracious God our loving Heavenly Father
We come before you today with all humility
Teach us to turn our panic, worries,
fear and anxieties into act of kindness
and love for one another.

Renew the strength of our front liners in this battle, cover
them and their family members
under your wings of unfailing love.
Grant your new insights to our scientist
to discover the right treatment.

Send your wisdom to our leaders to act wisely.
Pour your healing touch
to those who are infected with covid 19 and other dis-
eases.

May those who are Quarantined
experience your powerful love , comfort and miracle
Remind us today that you are only HOPE and
STRENGTH.

We commit our everything into your powerful Hand,
Your Hand that is safe and secure,
Your Hand that is filled with forgiveness,
Your Hand that is filled with compassionate Love.
We offer this prayer in our Mighty Name of Jesus
Amen .

1. How do you feel about being quarantine?

I feel being in the quarantine is our moral and social responsibility. Though 14 days seem to be a long time, I think maybe this can be reduced by selective approach. Certain people maybe let out if no symptoms start to show at all..

2. What are your thoughts on keeping one meter distance?

One meter distance is a great way to ensure the corona spread chain is broken.

3. Is there any new insight during these few days of quarantine? Or?

Not yet but getting to know more people and being back in home town feels great.

4. What are the new things that you have learned during these few days in LFI Q-centre?

I learnt that life has plan which is completely different than yours. And how important it is to have good savings.

5. Does cleanliness matter much to you?

Cleanliness and personal hygiene is extremely important.

6. Do you always wash up before a meal?

I wash before and after meals

7. What are the four Do's to stay safe during the Corona outbreak?

Social distancing, mask, sanitization, washing hands frequently and covered clothes

8. Do you have any advice to give to your fellow inmates?

Yes. Don't compromise social distance ! It's the only defense till we have the cure

9. Are you reading the Bible every day?

YES

10. Are you happy with the services provided by the Q-centre in charges? If yes why? If no why?

Yes I am extremely happy with the centre, nothing is a greater good than giving it back to the community.

11. Do you have any suggestions or advices to give to the Q-centre in charges?

I have no advice. But I have much thanks and gratitude for helping us.

ACKNOWLEDGEMENT
